

Empower NetSecOps with Advanced Network Visibility

ALL IN ONE

Power X agility packaged into compact intelligent visibility platforms

4248-6C

48 ports of 10/25Gb plus 6 ports of 40/100Gb

4540

28 ports of 40/100Gb plus 8 ports of 10/25Gb

 200Gb of advanced packet processing Packetron™ module to enable:

- Network Intelligence applications
- 3rd Party virtual applications hosting

Packetron modules offer a wide selection of Network Intelligence applications, including Deduplication, SSL Decryption, Data masking, Application Filtering, RegEx filtering, NetFlow/IPFIX generation 4G/5G mobile visibility, and more.

Connect any network and any tool interfaces - 10/25/40/100Gb

Niagara Networks introduces a new range of advanced fixed packet broker platforms to bring more intelligence, capacity and, performances to network and security operations.

About Niagara Networks

Niagara Networks provides high performance network visibility solutions for seamless administration of security solutions, performance management and network monitoring. Niagara Networks products provide advantages in terms of network operation expenses, downtime, and total cost of ownership. A former division of Interface Masters, Niagara Networks provides all the building blocks for an advanced Visibility Adaptation Layer at all data rates up to 100Gb, including TAPs, bypass elements, packet brokers and a unified management layer. Thanks to its integrated in-house capabilities and tailor-made development cycle, Niagara Networks are agile in responding to market trends and in meeting the customized needs of service providers, enterprise, data centers, and government agencies.
